

For families in self-direction

# When caregivers thrive, families thrive.

Self-direction gives your family real choice — and a pile of administration to run on your own: hiring, timesheets, payroll, notes, compliance, and the worry that a wage change costs you your caregiver. Clairo Care keeps the choice and takes the burden.

## CAREGIVER FIRST

### When we build our budget, caregiver wages come first — not last.

We decide what caregivers should be paid, then design the rest of the operation around making that sustainable — automated admin instead of large teams, offices, and overhead.

**\$32.50–\$45**

#### per hour for your caregiver

Depending on your county and the service level on the approved care plan, plus mileage.

**This fall**

#### an answer to the SDS wage cuts

If the cuts would push your caregiver out, come to us — protecting caregiver wages is our first principle.

**With vendors**

#### we'll help bridge the gap

Staying with your vendor? We'll work with you and them to try to close the wage gap so your caregivers don't leave.

## Switching takes about a week

### 1 Let's talk

One meeting with you, your support broker, and your CCS to review the budget and confirm hours transition cleanly.

### 2 Get onboarded

One link: background check, a few short trainings, and the apps for notes, clocking in, and direct deposit.

### 3 Get started

You're live — your caregiver keeps working, and gets paid the wage our model is built around.

## Caregiver Matchmaker

# The 60/40 rule arrives this fall. You may need a second caregiver.

Under the 60/40 rule, one family caregiver can no longer cover all of a participant's authorized hours. Families who wait until the deadline will be hiring under pressure — so we are building a way to line up a trusted second caregiver early.

- 1 Describe the hours you need to fill — days, times, support needs, and your county.
- 2 Review background-checked caregivers near you, ranked by fit against that schedule.
- 3 You choose who joins your team. They onboard at Clairo wages, with the same benefits.

Sketch of Caregiver Matchmaker, in development. Caregivers shown are examples.

## What we handle for your family

Payroll, direct deposit, and the DOC tax exemption

Background checks and onboarding paperwork

Notes, timesheets, and clock-in through our apps

Trainings, compliance, and delegating nurse oversight

## What your caregivers get

\$32.50–\$45/hr by county and service level, plus \$0.35/mile

Health insurance at 30+ hours a week — we cover \$200–\$300/month

Paid time off: 1 hour for every 15 worked, up to 40 a year

A quarterly wellness benefit set aside for the caregiver

## Already working with a vendor?

Some families thrive in self-direction; others want the flexibility and freedom without the burden of managing it alone.

## Get on the list before the fall
