

For families in self-direction

When caregivers thrive, participants & families thrive.

Self-direction gives your family real choice — along with a pile of administrative work, worries about DDA changes, and more. Clairo Care takes that off your plate.

CAREGIVER FIRST

When we build our budget, caregiver wages come first — not last.

With Clairo Care, a caregiver's family relationship to the participant is irrelevant to their wage.

PERSONAL SUPPORTS

\$32.50–\$35.50/hr

Depending on your county. If they qualify for enhanced services, the wage goes up relatively.

CDS

\$32.50 /hr minimum

CDS wages can be up to \$40+ depending on the funds allocated to CDS in your budget.

MILEAGE

+\$1.50/hr

Mileage reimbursement equals about an extra untaxed \$1.50 per hour. Capped at 4 miles per hour worked

HEALTH INSURANCE

\$250/mo contribution

For caregivers working 30+ hours a week.

PAID TIME OFF & SICK LEAVE

Up to 40 hrs / year

Accrues from 12 hours a week.

WELLNESS BENEFIT

Quarterly

An amount set aside for the caregiver

For CDS employees we are able to cushion these benefits further, depending on what is available in your budget.

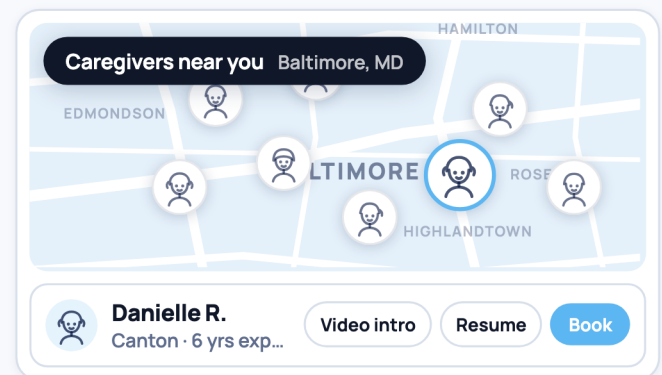

How? We receive the same amount of money as every other DDA provider. Our tech-enabled systems and unique business model let us sustainably pay and support caregivers, and still leave enough to keep operating and keep improving.

Switching takes about a week

- 1 Let's talk** — one meeting with you, your support broker, and your CCS to review the budget and confirm hours transition cleanly.
- 2 Get onboarded** — one link: background check, a few short trainings, and the apps for notes, clocking in, and direct deposit.
- 3 Get started** — you're live — your caregiver keeps working, and gets paid the wage our model is built around.

Caregiver Matchmaker

We provide the tools to stay ahead of staff shortages and the 60/40 rule. Matchmaker surfaces background-checked caregivers near you — you interview them, and we deal with hiring.
